Bernstein

Deliverable no. 5, ref. D4.1, Paper-incunabula cross-linking

Deliverable number	<i>D1.1</i>
Dissemination level	<i>Public</i>
Delivery date	<i>22 February 20007</i>
Status	<i>Final</i>
Author(s)	<i>The Bernstein Consortium</i>

eContentplus

This project is funded under the *eContentplus* programme¹,
a multiannual Community programme to make digital content in Europe more accessible, usable and exploitable.

¹ OJ L 79, 24.3.2005, p. 1.

The cross-link between the “Watermarks in Incunabula printed in the Low Countries” (WILC) and the “Incunabula Short-Title Catalogue” (ISTC) has been implemented and tested. WILC is the consortium’s database on papers of Dutch early printed books and ISTC is the database of the British Library developed in collaboration with LU, providing information on the content and physical aspects of virtually all known incunabula editions in the world (29.224 editions). The linking consists in Digital Object Identifier (DOI) hyperlinks representing Incunabula of the Low Countries (ILC) numbers, a metadata information already present in WILC and ISTC (in Marc21 format), which status as standard for incunabula studies will ensure persistency of interoperability.

In WILC the link is implemented as a button with the label “ISTC description” at the report of a record next to Source. In the ISTC full description the link to KB/WILC can be found under “Notes” (see: 5. ISTC – Full description).

The following pages show how the link works starting from the home page of WILC (<http://watermark.kb.nl/>) with a simple search.
