Development stages of collections of paper reproductions and their funding eligibility within the eContentPlus programe

⁽¹⁾ eContentPlus is funding the interoperability and interlinking of existing digital resources and not the creation of new digital data or tools. See ECP FAQ 2.6-8 at http://europa.eu.int/information_society/activities/econtentplus/calls/faq/index_en.htm .

⁽²⁾ However if the new resources need only limited investment, are valuable and will be made available under a digital form before the end of the project, some degree of adding new data might be acceptable. See ECP Work Programe p. 11 at http://europa.eu.int/information_society/activities/econtentplus/docs/call_2005/ecp_work_programme_2005.pdf.
